## FORMER EDUCATION / COURSEWORK

---

- Student at Carnegie Mellon University. (18-461/661) Intro to Machine Learning For ECE (Graduate)
- Teaching Assistant at Carnegie Mellon University. (15-410) Operating System Design And Implementation
- B.S. In ECE | May 2020 (15-351) Algorithms and Advanced Data Structures
- M.S. In ECE | December 2021 (18-491) Digital Signal Processing
- Dean's List Spring 2018 (18-370) Fundamentals Of Control

## WORK

---

- **C.E.O. Of Greenstar Group**  
Greenstar Group Inc. is a company that supplies tailored financial software to small wealth management firms. We run statistical models such as Markowitz and Monte Carlo, and pack our model outputs into neatly formatted reports.
- **CMU Dept. Of ECE | Teaching Assistant For (Graduate) Introduction To Machine Learning | Spring 2020**  
Taught graduate students fundamental machine learning techniques such as Linear Regression, Naïve Bayes, Logistic Regression, Multiclass Classification, SVMs, Nearest Neighbors, Decision Trees, Ensemble Methods, Neural Networks, Clustering, PCA, Online Learning, and Reinforcement Learning.
- **CMU Dept. Of ECE | Theoretical Machine Learning Researcher | Spring 2020**  
Implemented various machine learning methods to classify children's stages of sleep, as well as detect health anomalies given recorded brain waves and vitals using a medical dataset in which CMU has exclusive access to.
- **General Motors | Embedded Controls Intern | Stability Of Vehicle | Summer of 2019**  
Applied control theory concepts to design a brake system for a trailer. The system included ABS and ESC safety features. The system detected instability of a trailer in real time and dampened trailer sway by engaging the brakes.
- **CMU Dept. Of ECE | Signals Researcher | Ultrasonic Positioning Systems | Summer of 2018**  
Worked on close range ultrasonic positioning systems for blind person navigation. Chirps, STFTs, and FFTs are some of the DSP concepts used to implement the system.
- **CMU ISR | Software/Data Researcher | Repository Bug Data Analysis | Summer of 2017**  
Data mined repository contributor bugs and inserted this data into MySQL databases. Performed statistical analysis on the data to determine coding practices that result in projects with harder to resolve bugs.

## SKILLS

---

- Theory : Machine Learning, Operating Systems , Control Theory, Signal Processing
- Programming Languages : Python, MATLAB, C, MySQL, JS, PHP
- Cloud Tools : AWS, Google Cloud, Kubernetes, Docker, Heroku

## TRACK AND FIELD ACHIEVEMENTS

---

- Ran the 46<sup>th</sup> fastest indoor 300m time of 2016 in the U.S.A (35.16 Fully Automatic Time, Stuyvesant Grey Ducks)
